Sponsorship encompasses a great deal of legal responsibility, and we at the Maysville Local Schools take our responsibilities seriously. At the core, we are dedicated to facilitating high quality education to today's students. In Ohio, there are significant consequences for poor performance in academics, finance, operations, and governance. If a school does not perform well, it may be closed automatically by law or by the sponsor and could be subject to civil liability. Therefore, it is extremely important that school founders demonstrate a strong, evidence-based understanding of community school operation before moving forward with the start-up community school process.
